

2008 Huntington Bicycle Challenge

Adventure Race • Scenic Tour • Business Team Challenge

September 20-21, 2008

The Huntington Bicycle Challenge is a two-day cycling event that promotes fitness, community involvement, and appreciation of the outdoors. The course travels through every town in Huntington County and both of the reservoirs using a challenging on- and off-road course. Alternate courses allow community members to participate in a fitness ride without the pressure of competition.

This event would not be possible without the support of local businesses and community members who donate their time and money. Advertising sponsorship is available at several levels. Become a sponsor today!
